Housing Minister Ruth Kelly has announced a review of the ‘purpose of social housing’.

Her announcement coincides with the publication of a report by the Smith Institute which proposes further destruction of public housing including: abolishing tenure for life; statutory obligations to sell off homes on social housing estates; setting rents relative to earnings; ending ‘rights to housing’ for priority homeless and increasing levels of home ownership.

Only housing professionals are being consulted on what is effectively our future. The London Tenants Federation aims to ensure that tenants views are heard in setting out our own vision for housing in London.

Our conference is also part of a series of housing events that are taking place over the last weekend of September and Monday 2nd October – World Habitat Day. Events include debate on development of international links between tenants organisations, visits to London housing sites and mapping of London community, housing and land rights campaigns and struggles. More information will be available in the conference information pack and at the LTF conference.

If you would like to attend the LTF conference, please e-mail us detailing your name and address (including your borough), along with your first and second choice of workshop. Alternatively complete and post the booking slip overleaf. (Contact details below) If you would like to attend the conference but would be unable to, without financial support towards childcare, please let us know. Please ensure you have booked by Friday 22nd September to receive an information pack in advance of the conference.

The London Tenants Federation is an umbrella organisation bringing together
London’s borough wide council tenant federations and organisations.
